## SUMMARY

I'm a passionate Full Stack Web Developer with a strong engineering background, always excited to solve problems and turn ideas into functional, user-friendly web solutions. I enjoy working with both front-end and back-end technologies like HTML, CSS, JavaScript, React, Node.js, and databases like MySQL, which allows me to build dynamic, scalable applications from start to finish. I thrive on collaborating with teams and clients to ensure that every project not only meets expectations but truly stands out. With a BSc in Chemical Engineering, I bring a unique analytical mindset to development, allowing me to tackle complex challenges in creative and efficient ways.
